

Govt removed Angel Tax, planning to boost fintech: Modi

Urges regulators to take initiatives to end cyber fraud

OUR CORRESPONDENT

MUMBAI: Prime Minister Narendra Modi on Friday said the government is making necessary policy changes, like removal of Angel Tax, to promote the fintech sector, even as he asked the regulators to take additional measures to check cyber frauds which can have a crippling impact on startups.

Lauding the fintechs for democratising financial services, Modi said the sector, which has attracted \$31 billion investment in the last 10 years, has played a key role in denting the parallel economy.

The Prime Minister was addressing the Global Fintech Fest (GFF) 2024, jointly organised by the Payments Council of India, the National Payments Corporation of India and the Fintech Convergence Council.

He said the domestic economy and the capital market are in a celebratory mood at a time when the nation is also going through a festive period. Modi underlined that the government is making all necessary changes on the policy level to assist the fintech sector and gave examples of doing away with the Angel Tax, allocating Rs 1 lakh crore to encourage research and innovation in the country and implementing the Digital Personal Data Protection Act.

Expressing the need to put

PM Narendra Modi during the Global FinTech Fest, 2024, on Friday PIC/PTI

The Prime Minister said the trinity of Jan Dhan, Aadhaar and Mobile have broken down the mentality of 'cash is king'

an end to cyber fraud, he urged the regulators to take major initiatives to boost digital literacy. "It is equally important to ensure cyber fraud does not come in the way of the growth of fintech and startups in the country," Modi said. In his speech, the Prime Minister also cautioned about the dangers of a parallel economy for the world. Fintech, he said, has played an impactful role in denting

such a system and credited the emergence of transparency.

He said that digital technology has introduced transparency in India and gave the example of the implementation of the Direct Benefit Transfer used in hundreds of government schemes that has prevented leakages in the system.

"Today, people can see the benefits of aligning with the formal banking system," he said. Modi further said the trinity of Jan Dhan, Aadhaar and Mobile have broken down the mentality of 'cash is king'.

"India's UPI has become a major example of fintech in the world," the Prime Minister said, adding that it has enabled 24x7 banking services in every village and city in all weather conditions.

Economy well poised for 6.5-7% growth in FY25, believes CEA

NEW DELHI: Chief Economic Advisor V Anantha Nageswaran on Friday said the Indian economy is on its way to achieve 6.5-7 per cent growth in the current fiscal, notwithstanding the GDP growth falling to a 15-month low of 6.7 per cent in the April-June quarter this fiscal.

Despite GDP growth falling to a 15-month low, CEA V Anantha Nageswaran is positive PIC/PTI

According to data released by National Statistical Office (NSO), the GDP growth rate slipped in the first quarter to 6.7 per cent, mainly due to deceleration in farm production, which slipped to 2 per cent from 3.7 per cent in the April-June quarter of 2023-24.

Talking about the farm sector growth, he said there are very few deficit monsoon subdivisions and most divisions have experienced normal rainfall. The sowing of kharif is "higher than last year."

"I think, the agriculture and allied sectors will see a rebound in their growth rates as we head further into the financial year," he said.

Rural consumption has indeed stabilised and improved, and a good monsoon will give a further boost to rural and overall consumption in the coming quarters.

The budget also provides a

further boost to the continued good momentum, particularly with the focus on employment, generation, skilling, agriculture, MSME sector and energy security in the medium term, he said. Therefore, he said, the Indian economy can look forward to a growth rate of 6.5-7 per cent and can grow at a rate of 7 per cent plus on a sustained basis if structural reforms undertaken over the last decade are further expanded in the coming years.

He exuded confidence that growth momentum remains strong and 6.5-7 per cent growth is very realistic for the current fiscal.

Talking about risk factors, Nageswaran said financial markets globally still remain elevated and volatile in the light of political development that might still unfold in other parts of the world, and therefore, potential financial market correction can have implications for sentiment and therefore, on private consumption. Assam govt allows oil exploration near Hoolock Gibbon Sanctuary

GUWAHATI: The Assam government said it has approved an oil exploration project near Hoolongapar Gibbon Wildlife Sanctuary by the Vedanta group and forwarded the proposal to the Centre for consideration.

The minister made the remark while replying to a query by the Leader of the Opposition in the Assembly, Debabrata Saikia, on Thursday. "We have forwarded it to the National Board of Wildlife (NBWL) and they will make a final decision. Before the final approval, we will discuss with experts," the minister said. PTI
